

MD BAPPY REJA

BACK OFFICE TEAM LEAD • OPERATIONS & PROCESS MANAGEMENT • EEE UNDERGRADUATE

Dhaka, Bangladesh • +8801938-996191 • bappyreza.mbr@gmail.com • linkedin.com/in/yourprofile

PROFESSIONAL SUMMARY

Operations and Back Office professional with 3+ years of experience in healthcare service coordination, workflow implementation, process documentation, employee training, task management, reporting, and cross-functional operational support. Currently serving as a Back Office Team Lead, overseeing a pilot 8-person Assistant Coordination operation involving employees from multiple vendors, with responsibility for task allocation, workload monitoring, quality follow-up, issue resolution, performance feedback, progress reporting, and coordination with hub management.

Previously contributed to the transition of timesheet operations from a Philippines-based team to Bangladesh by helping establish and document the workflow that developed into a dedicated Timesheet function. Experienced in creating SOPs, training employees across multiple operational functions, operating HHAeXchange and Monday.com, and providing support across scheduling, pre-billing, EVV, documentation, reporting, and other back-office activities.

Currently pursuing a B.Sc. in Electrical & Electronic Engineering, with hands-on academic experience in Python, Arduino-based hardware, digital logic, circuit design, MATLAB, AutoCAD, and engineering simulation tools — combining an engineering problem-solving mindset with practical experience in operations, process standardization, and team coordination.

CORE COMPETENCIES

Leadership & Management	Process & Operations	Healthcare & Administration
Team Leadership	Workflow Development	Service Coordination
Task Distribution	Process Standardization	EVV & Timesheet Processes
Multilingual Team Supervision	SOP Creation	Pre-Billing Documentation
Training & Knowledge Transfer	Escalation Management	Scheduling & Overtime Mgmt.
Performance Monitoring & Feedback	Cross-Functional Operations	Stakeholder Communication

PROFESSIONAL EXPERIENCE

Hi-Tech IT Solution Dhaka, Bangladesh	Sep 2026 – Present
Back Office Team Lead	
▶ Lead operational execution for an 8-person pilot Assistant Coordination team within the Back Office Department across Hi-Tech IT Solution and external vendor organizations. ▶ Create and maintain working files, distribute tasks, assign workloads, and monitor completion and follow-up quality throughout daily shifts. ▶ Monitor team performance, identify incomplete or insufficient follow-ups, escalate concerns to Hub Managers, and resolve operational bottlenecks directly with representatives. ▶ Develop structured feedback files to document performance metrics, improving accuracy, accountability, and procedure adherence. ▶ Prepare and communicate operational progress updates during internal meetings to give executive management visibility into performance. ▶ Support planned expansion of the pilot operation from 8 representatives to a 15-person dedicated sub-department. ▶ Execute cross-functional coverage including approved overtime aide scheduling, conflict-call handling, front-desk escalations, timesheet verification, and reporting via Monday.com.	
Hi-Tech IT Solution Dhaka, Bangladesh	Apr 2025 – Aug 2026
Back Office Specialist	

- ▶ Supported workflow development across multiple back-office functions, managing international operational transitions from Philippines-based teams to Bangladesh.
- ▶ Assisted in building the core Timesheet operating process that scaled into a dedicated 8-person sub-department.
- ▶ Authored and maintained detailed SOPs covering Patient Hospitalization/Vacation procedures, EVV tracking, documentation compliance, and Timesheet verification/escalation criteria.
- ▶ Directly trained 2–3 employees in Timesheet operations and 8 employees in pre-billing processes across internal and external vendor teams.
- ▶ Executed management-approved overtime scheduling, placed aides into system schedules, and provided comprehensive coverage during staff leave.

Hi-Tech IT Solution | Dhaka, Bangladesh

Dec 2023 – Feb 2025

Home Care Coordinator (CDPAP)

- ▶ Coordinated end-to-end service operations for a portfolio of 200+ consumers while maintaining strict scheduling and documentation standards.
- ▶ Achieved a perfect 1.0 KPI rating across all 4 quarterly evaluations in 2024, receiving \$1,200 total in KPI and Exceptional Performance bonuses.
- ▶ Acted as primary operational liaison for consumer matters, coordinating with internal departments and U.S.-based management.
- ▶ Prepared and organized structured operational reports utilizing HHAeXchange (HHAX) and Microsoft Excel to maintain pre-billing data integrity.

TRAINING, KNOWLEDGE TRANSFER & SOP EXPERIENCE

Training & Mentorship

- ▶ Onboarded and trained approximately 12–13 employees across coordination, Timesheet, and pre-billing functions.
- ▶ Conducted extended shadowing programs (several weeks to 1 month per batch) covering workflows, live troubleshooting, and process validation.
- ▶ Trained 2 Home Care Coordinators, 2–3 Timesheet operators, and 8 pre-billing representatives from Hi-Tech IT Solution and partner vendors.

Process Documentation & SOP Development

- ▶ Formulated standardized operational SOPs for Patient Vacations/Hospitalizations, Patient Communications, Faxing/Follow-up, Electronic Visit Verification (EVV), and Timesheet Rejection/Escalation workflows.
- ▶ Impact: standardized team-wide documentation accuracy, reduced operational tracking errors, and streamlined case resolution.

TECHNICAL SKILLS

Programming & Simulation: Python (strong working knowledge), C++, Arduino Programming, MATLAB, AutoCAD, MultiSim, Microchip Studio, Arduino IDE.

Business & Productivity Software: Microsoft Excel (VLOOKUP, Pivot Tables), Microsoft Word, Microsoft PowerPoint, Monday.com CRM, HHAeXchange (HHAX).

Operational Systems: Task & Case Management, Workflow Tracking, Operational Reporting, EVV Processes, Pre-Billing Documentation, Scheduling Systems.

ACADEMIC & TECHNICAL PROJECTS

Digital Voting Machine | Hardware / Digital Logic Project (ULAB)

- ▶ Co-designed and constructed a functional digital voting prototype as part of a 3-member engineering team.
- ▶ Designed circuit schematics and layout; wired physical prototypes using push buttons, LCD/7-segment displays, LEDs, resistors, and Arduino Uno.
- ▶ Programmed system logic in C++/Arduino IDE to handle automated vote tallying, circuit testing, and hardware troubleshooting.
- ▶ Successfully presented a live working prototype during final academic project evaluations.

Expense Tracker Application | Python Software Project (ULAB)

- ▶ Developed a Python application to record, manage, and calculate personal financial/expense data.
- ▶ Applied programming logic to automate calculations and output structured financial reports and expense summaries.

EDUCATION

Bachelor of Science in Electrical & Electronic Engineering (B.Sc. in EEE) Expected 2028
University of Liberal Arts Bangladesh (ULAB)

Core Focus: Circuit Analysis, Digital Electronics, Logic Design, Computer Programming, Engineering Mathematics, Embedded Systems Design.

Higher Secondary Certificate (HSC) — Science 2021 • GPA 5.00 / 5.00
Dhaka Udyan Govt. College

Secondary School Certificate (SSC) — Science 2019 • GPA 4.89 / 5.00
Dhaka Presidency High School

EXTRACURRICULAR ACTIVITIES

ULAB Robotics Club — *Member (Joined 2026)*
▶ Engage with university technical communities on robotics design, engineering discussions, and hands-on project learning.

ULAB Debating Society — *Member (Joined 2026)*
▶ Participate in public speaking, critical reasoning, and event management — coordinating logistics and hospitality for invited guests.
